PROFILE

Full-stack engineer with three years of client-facing freelance web development and hands-on product delivery. I work across React/Next.js, Node.js/NestJS, PostgreSQL and AWS, using structured AI-assisted workflows backed by tests and engineering judgement.

TECHNICAL SKILLS

Frontend: TypeScript, JavaScript, React, Next.js, HTML/CSS, responsive UI, SSR/SEO

Backend & data: Node.js, NestJS, REST APIs, PostgreSQL, Prisma ORM, Redis, JWT, RBAC

DevOps & QA: AWS EC2, Ubuntu/Linux, Caddy, HTTPS, Docker, Git, GitHub Actions, CI/CD, Playwright, Jest

AI-assisted engineering: Codex, AI coding agents, structured specifications, test-based verification, LLM/API integrations

MY OPEN WORKS

Galaxiora | Full-Stack Product Engineering · Team Startup | 2026 – Present

Bilingual astrology, Tarot, Panchanga and learning platform in production on AWS.

- Delivered an English/Ukrainian Next.js + NestJS product with PostgreSQL, Prisma, authentication, personalized tools, content and community modules.
- Implemented deterministic astronomical calculations with Swiss Ephemeris and a reference corpus of 20 natal charts covering 600 D1/D9/D10 sign comparisons.
- Built interpretation workflows that separate deterministic results from AI-generated explanations, including validation and fallback paths.
- Established production operations with Ubuntu, Caddy/HTTPS, GitHub Actions, regression checks, GA4 and technical SEO.

OpsPilot Admin | Independent Engineering Project · B2B Prototype | 2025 – 2026

A prototype control plane for safe runtime configuration and administrative workflows.

- Built workspace-scoped RBAC, Redis cache-aside, revision history, approvals, audit trails and rollback flows.
- Developed scoped service API keys, rate limiting and a Node.js SDK with resilient caching.
- Validated a local API benchmark of 1,000 requests at concurrency 50; not a claim of production customer traffic.

PROFESSIONAL EXPERIENCE

Independent Web Developer · Freelance | May 2023 – Sep 2026

- Delivered responsive business websites and landing pages for local and referral clients, from requirements and UX structure through implementation and handover.
- Worked directly with clients, incorporating design feedback, revisions and clear project communication.

Creative production & commercial motion design | 2016 – 2023

- Produced client-facing visual work and animations; developed visual storytelling, composition and an eye for frontend detail.

EDUCATION

M.Sc., Software Development · Kryvyi Rih National University · 2018
